

**FOR YOU  
MINI GIULIETTA  
USB**

In recent years LEDs have become the light source of choice for lighting designers and for consumers who are increasingly sensitive to energy savings and environmental protection. The light emitted by the LEDs we use tends toward the various tonalities of white: cool white, neutral white and warm white.

Mini Giulietta USB and For You USB utilise the power of the LED combining it with USB technology to make these two models versatile for multiple uses in different rooms.

The USB interface can be connected to a large number of sources (photos 1, 2, 3, 4)

Thanks to the use of a power bank, it is possible to move the turned on lamp from one room to another (photo 1)

It is also possible to attach the power bank, for example under a table, to prevent obstruction and cables visibility (photo 2)

Touchless optical dimmer.  
 You can switch and dim  
 the light by approaching the  
 sensor, without touching.  
 Three-intensities of light  
 (photo 5)

Thanks to the flexible arm the  
 light can be oriented easily  
 according to one's needs  
 (photo 5).

The TopLEDs are installed  
 on a board connected to the  
 lamp's body by means of a  
 jack and a micro-connector;  
 In case of malfunctioning it  
 is enough to disconnect the  
 connector and remove the  
 board for any check, repair or  
 replacement.

**For You USB**  
table lamp

made of black base, flexible pipe and shade, nickel details.

LED: 24 x TOP LED [ warm white ]  
energy class from A++ to A

rated output: 2W 5V

voltage: 100-240V

power supply: plug driver USB, 100-240V - with touchless dimmer, three-intensities of light

dimensions: base 7x7 cm, shade Ø 7 cm, variable ledge 15 cm, flexible pipe length 50 cm, cable 150 cm

code:  
EFYU02 / black € 285,00

source	type	watt	lumen	K	CRI	energy class	base	driver/transformer	dimmer
constant voltage LED 5V	LED board	2W	80	3000 warm	70	A+	black 7x7 cm	J	touchless dimmer included

A **EU plug** for the connection of the USB source to the 100-240V mains is included in the package.

**Battery Pack / Power Bank:** with the use of the battery the lamp can work anywhere without needing to be connected to the domestic power network (not included in the package - easily available on the market)

It is possible to connect the lamp to the **computer** port obtaining the right lighting while using the pc.

The USB interface can be connected to a large number of **sources**.

**Mini Giulietta USB**  
table lamp

made of black or white base and flexible pipe, mirror polished, black or white metal hoop, nickel details.

LED: 40 x TOP LED [ warm white ]  
energy class from A++ to A

rated output: 3W 5V

voltage: 110-240V

power supply: plug driver USB, 100-240V - with touchless dimmer, three-intensities of light

dimensions: base 7x7 cm, hoop Ø 9 cm, variable ledge 15 cm, flexible pipe length 50 cm, cable 150 cm

codes:  
EMGTUN02 / black with black hoop € 345,00  
EMGTUC02 / black with metal hoop € 345,00

source	type	watt	lumen	K	CRI	energy class	base	driver/transformer	dimmer
constant voltage LED 5V	LED board	3W	160	3000 warm	70	A+	black 7x7 cm	J	touchless dimmer included

A **EU plug** for the connection of the USB source to the 100-240V mains is included in the package.

**Battery Pack / Power Bank:** with the use of the battery the lamp can work anywhere without needing to be connected to the domestic power network (not included in the package - easily available on the market)

It is possible to connect the lamp to the **computer** port obtaining the right lighting while using the pc.

The USB interface can be connected to a large number of **sources**.
