TREASURE BOX

by James Irvine

„Everybody is surrounded by treasures - by finds, memories, the figures of the model railways.

Most get dusty somewhere.

I wanted to return their intrinsic value to these treasures.

Enzo Mari once designed a Wunderkammer - I thought this very nice.

But I wanted to design no system - but, rather, the focus was to be on individual »boxes«.

James Irvine, Milan 2006

Besondere Ausstellung. TREASURE BOX, das Schatzkästchen für persönliche Schätze, ist aus Massivholz. In naturbelassener Esche tritt es optisch in den Hintergrund, damit auch die kleinsten Lieblingsstücke darin zum Blickfang werden können. In 2 Varianten.

..

Ideal setting. TREASURE BOX is made from solid wood – ash, with a natural finish – and provides a restrained visual backdrop that displays even the smallest trinkets and ornaments of personal value effectively. Two versions are available.
